

GULF COAST VELOCITY DATA · SINCE 1986

The GCVD Data Warehouse

Seven quality-controlled data products and a regional velocity cube, across 34 states and the Gulf of Mexico. Search by API, county or map; every price is published online.

462,881

wells in the warehouse

9,853

velocity (check-shot) surveys

641k km²

covered by the velocity cube

\$200,000

the whole warehouse

Seven data products, priced per well

PRODUCT	FORMATS	WELLS	PER WELL	EVERY WELL
● Velocity Surveys time-depth pairs + the original scan	TXT, LAS, PDF	9,853	\$50	\$67,000
● Directional Surveys recalculated for historical convergence	TXT	9,907	\$10	\$25,000
■ Digital Well Curves standardized mnemonics and units	LAS	42,218	\$25	\$86,000
■ Raster Well Logs scans; depth registration on request	TIF	280,638	\$2	\$69,000
▲ Paleontological Data biostratigraphic picks	CSV	18,199	\$2	\$9,100
▲ Mud Weight & Temperature checked against log headers	CSV	12,190	\$1	\$3,050
● Virtual Checkshots from the cube, at Texas wells	TXT, LAS	127,913	\$10	\$93,500

The GCVD Velocity Cube

A regional 3D velocity model of onshore Texas and Louisiana and the Gulf of Mexico shelf, built from GCVD's own measured checkshot surveys. Click any point on the map to see its time-depth function and confidence grade before you buy.

Point checkshot
at any point you choose **\$25**

Control set
the point + the four nearest measured surveys **\$175**

Packages: bigger costs less per well

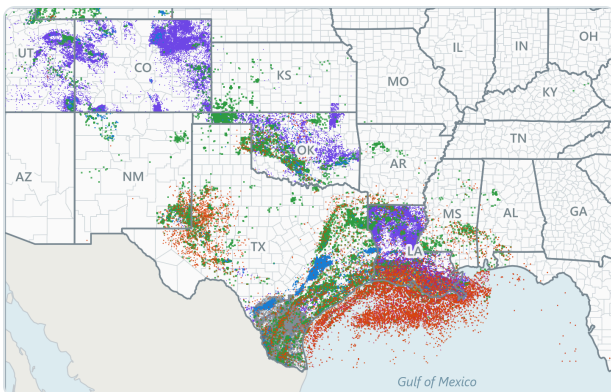

County / parish **35%+ off** **\$1,200**
velocity, Calcasieu Parish, 37 wells

State **50%+ off** **\$28,500**
velocity, Texas, 2,902 wells

Regional **60%+ off** **\$37,000**
velocity, offshore Gulf of Mexico, 4,914 wells

Full dataset **75%+ off** **\$67,000**
every velocity survey, 9,853 wells

Full Data Warehouse **\$200,000**
every well of every product, 94% off list

Wells by product (colours as in the table). Every well is on the map at velocitydata.com/map/.

How it works

Search by API number, operator or county, or draw an area on the map.

Check out by card or PayPal. A whole county or state in the cart is priced as a package automatically.

Download. Velocity, directional, paleo, mud and virtual checkshots download as soon as payment clears; curves and raster logs follow within one business day.

Save 25% on any order

Enter code **SAVE** at checkout. It stacks on county and state package prices.

Start with a free sample

One real file of each product at velocitydata.com/samples/.
